CEO of Local Telecommunications, Sprint/Nextel Dan Hesse

Dear CEO of Local Telecommunications, Sprint/Nextel Hesse,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

Dear CEO of Local Telecommunications, Sprint/Nextel Hesse,

It's time you started taking care of the people that are putting the money in your pocket!! I will not be doing any business with you or support you in any of your business activities since I've read what you are doing to your employees.

I would not recommend using any of your products or working for you since you have so little respect for your employees

It's time the American people stand up against big business

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Indiana Utility Regulatory Commission Regulatory Commission

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I am seriously considering dropping my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

CEO of Local Telecommunications, Sprint/Nextel Dan Hesse

Dear CEO of Local Telecommunications, Sprint/Nextel Hesse,

Since I was first introduced to SprintPCS I have been a loyal customer and have recommended Sprint to others. I understand your need to maintain a profitable business. However, I would like to remind you that profit must work for everyone.

The working class people are the backbone of any nation. Most of them are loyal to their employers. I hear often, "the rich people have to make money so that can give jobs to the poor people." This is true, however, it is also true that the rich people cannot make money without the help of workers.

My request is that you return the honor in which you are held by your workers by helping them remain healthy and care for their families. Surely, a man of your intelligence and integrity can manage this. I realize that the only standing I have with you is being a citizen of the same planet but I am asking you to seriously consider. CEO of Local Telecommunications, Sprint/Nextel Dan Hesse

Dear CEO of Local Telecommunications, Sprint/Nextel Hesse,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more—especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

Your organized workers are a very important part of your company. You have promised them benefits. A company who is looking for take backs is surely the sign of a company not true to any of its guarantees, including those given to its customers. I will be watching the end result in your negotiations with your union. Hopefully you will take a closer look at the bargaining units proposals and resolve them in an amicable manner. Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more—especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

I have already switched my Regional and long distance service to IDT Corp. I had signed up for Sprint long distance at 7 cents per minute, then you switched it to 10 cents per minute. Also, what you are doing to workers does not sit well with me. If I could switch the local service to IDT or another carrier, I would. Sprint is not easy to deal with, since I started service in May, you have never sent a phone directory. I requested this 5 times and each time was told it would arrive. It never did, so now I give up. Hopefully, local service will be opening up to competition in this area, and I will get rid of Sprint immediately.

Subject: Why I Am Dropping Sprint Nextel Service

CEO of Local Telecommunications, Sprint/Nextel Dan Hesse

Dear CEO of Local Telecommunications, Sprint/Nextel Hesse,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more—especially as you abandon local phone service in our communities

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance

Sincerely,

I can't believe how many CEOs make tens of millions, and then act like their employees are greedy for wanting compensation worth 40 or 60 thousand, really just enough so that they don't have to worry about keeping their families fed, housed and healthy.

Therefore, if I ever would have considered switching to Sprint due to some program you might offer, that's off the table now.
